

In Geography we are learning about Volcanoes.

Can you draw, paint or make your own Volcano and show it exploding?

Our Science is all about Animals and the Human body

Make a model of a skeleton and learn the names of the bones in the body.

Year 3 - Summer 2

Boundary Learning Together

You can complete one task a week and bring them in weekly or you can complete them all at once and bring them in on the last THURSDAY of term.

You will also receive weekly spellings and times tables which will be handed out every Friday and collected in every THURSDAY. Please make sure this is the day it is sent into school, to allow it to be quarantined and then marked by your teacher on the following Monday. If it has not been completed, your child will spend Friday break time completing it, inline with our school home learning policy. Thank you.

READ! READ! READ! Write a book review about the Home Reading book you have read or about any text from Reading Plus.

Learn your favourite poem off by heart and come to school and tell it to us all!

Summer is a great time to be Eco-Friendly.

How are you helping the environment at home and in the community? Can you recycle more? Could you build a bug hotel? How can you stay healthy?

In RE we are learning about Hinduism.

Can you find out about one of the Hindu Gods and why they are important?

In Design Technology we will be learning some sewing skills so practise at home by sewing on a button, or sewing something to create your own Sock puppet.

Use Timestable Rock Star to practice your multiplication skills, and revision tasks are set on MyMaths. Use Spelling Shed to practice weekly spellings in a fun way! Use Reading Plus daily!
