

Draw and label 5 magnets used in everyday life in your home.

Your challenge is to find ten examples of forces in action around your home e.g. pulling the curtains. Design a poster or diagram to present your forces.

Year 3

Autumn 1

'Poles Apart'

Boundary Learning Together

Activities

There are five activities to complete. You can complete one a week and bring them in OR you can complete them all at once and bring them in at the end of the half term.

You will also receive a spelling task, which will be handed out every Friday and collected in every Thursday.

Research a place you would like to explore. Use Google Earth to see what the place looks like. Write down some facts about your chosen place.

Visit your local library and find some books on explorers. Take a photo of your visit or bring the book into school.

Design a meal that you could take with you to the North or South Pole. You will need to do some research first!
