Autumn One: Boundary Learning Together

Task 1: Spellings

We need to learn our common Exception words. By the end of year two you need to learn how to read and spell all of these words. Use the list attached to help you practice some of them at home with your adult.

Task 3: Maths

We need to learn our 2,3,5,10 times table fluently by the end of year 2. Use the list attached on the back to help you practice.

If you have the internet at home, you can use this website to test yourself.

Extraordinary Earth

Homework due in by Friday 25th October 2019

Task 2: Science

Create a habitat of one of your favourite animals. Remember to use lots of different materials to make it as realistic as possible. Be as creative as you can. You can make your model and label what materials you would use or you can draw and label on a sheet of paper. Miss Ward and Miss Hooson can't wait to see what you come up with.

Task 4: Geography

Create a poster about your favourite country in the world. Remember to include facts such as; what language they speak, their capital city, famous landmarks and special food they eat.

Challenge: Can you find someone famous who lived or currently lives there?

Task 5: PSHE

Make a personal profile which is all about you. You need to include; a picture, your full name, age, where you live, what hobbies you enjoy, what you want to do when you're older, what can make you happy, upset or angry and how you deal with these emotions. At the end of term, you are then going to present this to the rest of the class. This will help us understand how different emotions and situations can affect people differently.
