

In History we are studying the Vikings. We would like you to make a Viking longship - the bigger the better!

We would like these to be returned by Monday 2nd December. The best one will be displayed on the project table outside Miss Ashton's office.

Year 6: Boundary Learning Together Tasks.

Write a job specification for someone who wants to become an anti-bullying ambassador. Make sure you use the school characteristics in your writing. Hopefully, we will adopt one of these job specs for future applicants.

Can you write your own Science Fiction story using what we have discussed in class?

Think about characters, settings, how to develop the story. There will be a prize for the best, most original story!!

Your story will be due in no later than Friday 29th November.

As part of our visit from the Vikings, children are invited to design a costume to wear for the day.

If a full costume is a little tricky to make, children are invited to make a helmet and shield.

There are some designs and ideas on the back of this sheet for the children to look at and get ideas. The visitors will be here on Wednesday 13th November so children will have 2 weeks to make something for the day.
