

It's Electrifying

Task 1: Spellings

We need to learn our common Exception words. By the end of year two you need to learn how to read and spell all of these words. Use the list attached to help you practice some of them at home with your adult. You can also use spelling shed. Remember the children have their logins stuck into their reading record. <https://play.edshed.com/>

Task 3: Maths

We need to learn our 2,3,5,10 times table fluently by the end of year 2. Use the list attached on the back to help you practice.

If you have the internet at home, you can use this website to test yourself.

Task 4: Computing

Write a set of instructions (algorithm) of how to use your favourite game. Remember that they must be clear and have all the features that we discussed last term. E.g. Time connectives, imperative verbs and title.

Task 2: Science

Complete a research fact file or poster about 'Tom Edison'. In your fact file you might want to include information like;

- His invention
- Why it is important/we need it?
- What uses do we have for it today?
- Facts about him and his life - did we find creating his invention easy?

Task 5: Art

Create a sculpture of your favourite electrical object. You can use any materials you like, yogurt pots, cardboard, tissue paper and straws.

Then write a small paragraph about your favourite object and explain what uses it has and why it's your favourite.
