Science – Animals and Humans

What does your body need to be healthy?

Create a balanced meal on a plate and either cook it with your family, or draw it for us to see!

Year 3 - Spring 1

Boundary Learning Together

You can complete one task a week and bring them in weekly or you can complete them all at once and bring them in on the last THURSDAY of term.

You will also receive weekly spellings and times tables which will be handed out every Friday and collected in every THURSDAY. Please make sure this is the day it is sent into school, to allow it to be quarantined and then marked by your teacher on the following Monday. If it has not been completed, your child will spend Friday break time completing it, inline with our school home learning policy. Thank you.

This half term we will be writing a play script.

Watch your favourite TV programme and create a 5 minute script using the characters and the theme of the story e.g.

Bart: Don't do that Lisa! (shouting angrily)

Homer: What are you doing Lisa? (Curiously)

Log into Seesaw show your teacher what you are doing for your homework online. You will need your email address and password. Use Timestable Rock Stars to practise your multiplication skills, and revision tasks are set on MyMaths. Use Spelling Shed to practise weekly spellings in a fun way for the Friday test!

It's important that we all take care of our environment.

Create a poster or presentation with some top tips about how you can take care of the environment at home and school.

RE – Think about people who inspire you and who you follow. What makes them someone that you aspire to be like?

Imagine you are travelling around the UK or Europe. How would you get around? Plan a dream journey and explain where you would like to go and why!
